654. Problems often come up in life. Sometimes they're personal problems -- people are very unhappy, or nervous and irritable all the time. Sometimes there are problems in a marriage -- a husband and wife just can't get along with each other. Or, sometimes it's a personal problem with a child or a job. I'd like to ask you a few questions now about what you think a person might do to handle problems like this.

For instance, let's suppose you had a lot of personal problems and you're very unhappy all the time. Let's suppose you've been that way for a long time, and it isn't getting any better. What do you think you'd do about it?

1. What R would do about the problem -- First mention.

Vignette wording:

(Alcohol dependence)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. During the last month [John/Juan/Mary/Maria] has started to drink more than his/her usual amount of alcohol. In fact, he/she has noticed that he/she needs to drink twice as much as he/she used to get the same effect. Several times, he/she has tried to cut down, or stop drinking, but he/she can't. Each time he/she has tried to cut down, he/she became very agitated, sweaty and he/she couldn't sleep, so he/she took another drink. His/Her family has complained that he/she is often hungover, and has become unreliable -- making plans one day, and canceling them the next.

(Major depression)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. For the past two weeks [John/Juan/Mary/Maria] has been feeling really down. He/She wakes up in the morning with a flat heavy feeling that sticks with him/her all day long. He/She isn't enjoying things the way he/she normally would. In fact nothing gives him/her pleasure. Even when good things happen, they don't seem to make [John/Juan/Mary/Maria] happy. He/She pushes on through his/her days, but it is really hard. The smallest tasks are difficult to accomplish. He/She finds it hard to concentrate on anything. He/She feels out of energy and out of steam. And even though [John/Juan/Mary/Maria] feels tired, when night comes he/she can't go to sleep. [John/Juan/Mary/Maria] feels pretty worthless, and very discouraged. [John's/Juan's/Mary's/Maria's] family has noticed that he/she hasn't been himself/herself for about the last month and that he/she has pulled away from them. [John/Juan/Mary/Maria] just doesn't feel like talking.

(Schizophrenia)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. Up until a year ago, life was pretty okay for [John/Juan/Mary/Maria]. But then, things started to change. He/She thought that people around him/her were making disapproving comments, and talking behind his/her back. [John/Juan/Mary/Maria] was convinced that people were spying on him/her and that they could hear what he/she was thinking. [John/Juan/Mary/Maria] lost his/her drive to participate in his/her usual work and family activities and retreated to his/her home, eventually spending most of his/her day in his/her room. [John/Juan/Mary/Maria] was hearing voices even though no one else was around. These voices told him/her what to do and what to think. He/She has been living this way for six months.

(Drug problem)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. A year ago [John/Juan/Mary/Maria] sniffed cocaine for the first time with friends at a party. During the last few months he/she has been snorting it in binges that last several days at a time. He/She has lost weight and often experiences chills when bingeing. [John/Juan/Mary/Maria] has spent his/her savings to buy cocaine. When [John's/Juan's/Mary's/Maria's] friends try to talk about the changes they see, he/she becomes angry and storms out. Friends and family have also noticed missing possessions and suspect [John/Juan/Mary/Maria] has stolen them. He/She has tried to stop snorting cocaine, but can't. Each time he/she tries to stop he/she feels very tired, depressed and unable to sleep. He/She lost his/her job a month ago, after not showing up for work.

(No problem)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college education]. Up until a year ago, life was pretty okay for [John/Juan/Mary/Maria]. While nothing much was going wrong in [John's/Juan's/Mary's/Maria's] life he/she sometimes feels worried, a little sad, or has trouble sleeping at night. [John/Juan/Mary/Maria] feels that at times things bother him/her more than they bother other people and that when things go wrong, he/she sometimes gets nervous or annoyed. Otherwise [John/Juan/Mary/Maria] is getting along pretty well. He/She enjoys being with other people and although [John/Juan/Mary/Maria] sometimes argues with his/her family, [John/Juan/Mary/Maria] has been getting along pretty well with his/her family.

THE RESPONDENT HAS TO DECIDE FOR ONESELF ROUGHLY HOW MANY YEARS OF SCHOOLING HAVE BEEN DEVOTED TO SPECIALIZED TRAINING FOR ONE'S CURRENT OCCUPATION. FOR A TYPICAL COLLEGE GRADUATE, TWO YEARS HAVE BEEN DEVOTED TO GENERAL EDUCATION AND THUS NO MORE THAN TWO YEARS WOULD BE SPECIALIZED TRAINING FOR ONE'S CURRENT OCCUPATION. A CORPORATE MANAGER WHO MAJORED IN BUSINESS ADMINISTRATION IN COLLEGE AND SPENT TWO YEARS FOR AN MBA WOULD GIVE "FOUR YEARS OR LESS" AS THE ANSWER TO TRAINSCH.

INSTRUCTION:

(1) If the respondent is a consultant employed by a consulting firm, the place refers to an office of the consulting firm rather than the office of a client. If the respondent is a civil servant at a local, state, or the federal government, the place is a departmental level agency (e.g. department of education, department of labor), not the entire government.

(2) The main relevant criterion for the answer is whether the work place of the respondent is just one location or a multi-location organization. If the respondent is not sure, simply record "8" as the answer. For our purposes, however, there are two special cases that can be dealt with unambiguously.

(a) If OCC suggests that a respondent is a government employee:

--The interviewer should record "part of a larger organization" (option 1) as the answer without asking the respondent.

--Moreover, substitute "other departments or agencies of the government" for "other parts of the larger organization" in subsequent questions.

--On the relationship between the respondent's work place and the larger organization (PARTORG), the answer should be recorded as "a government agency" (option 3) without asking the respondent.

(b) Similarly, if OCC indicates that a respondent is a public school teacher:

--The interviewer should record "part of a larger organization" (option 1) as the answer without asking the respondent.

--In subsequent questions, please change the wording accordingly. For instance, the interviewer should substitute "other schools of the school system" for "other parts of the larger organization."

--On the relationship between the respondent's work place and the larger organization (PARTORG), the answer should be recorded as "part of a school system" (option 4) without asking the respondent.

IF PART OF AN ORGANIZATION:

707. A. Have you ever worked full time at other parts (locations/schools/government departments or agencies) of the larger organization?

REMARKS: Hand Card FC was a graphical depiction of 14 houses surrounding "your house." Respondents were asked to fill in letters in each house to represent a most desirable racial-ethnic mix. In the sheet given to respondents, houses were empty and an A, B, H, or W was to go into the middle of each house. Here, numbers have been placed in the houses to clarify which variable pertains to which house. House #1 is NEIETH1, etc.

775. IF ATTENDED HIGH SCHOOL (EDUC), ASK IN TERMS OF "HIGH SCHOOL." IF LEFT SCHOOL BEFORE HIGH SCHOOL, ASK IN TERMS OF "THE LAST SCHOOL YOU ATTENDED."

A. Was the high school/last school you attended all white, mostly white, about half white and half other races, mostly other races, or all other races?

REMARKS: In 2000, filter logic for the computer questions varied across versions of the survey. In Version 4, computer questions were asked of respondents who: 1) used a computer (COMPUSE=1) or Web-TV (WEBTV=1); and 2) ever used the Web (USEWWW=1); and 3) used the Web more than 0 minutes per week (WWWHR>0) or (WWWMIN>0). In Versions 5 and 6, computer questions were asked of respondents who: 1) used a computer (COMPUSE=1) or Web-TV (WEBTV=1); and 2) ever used the Web (USEWWW=1); and 3) used the Web at least 1 hour per week (WWWHR>=1). In Versions 1 and 2, computer questions were asked of respondents who: 1) used a computer (COMPUSE=1) or Web-TV (WEBTV=1); and 2) ever used the Web (USEWWW=1); and 3) used the Web at least 4 hours per week (WWWHR>=4). 855. As you know, when people go to doctors, they may hold different expectations of what should result from their treatment. I'm going to describe a health problem. Please tell me how much you, yourself, would expect to get each of the following:

A. Say you went to treatment because you feel downhearted and blue and this interferes with your social activities (like visiting friends, relatives, etc.)

Would you definitely expect, probably expect, probably not expect, or definitely not expect your overall quality of life to improve?

REMARKS: Vignette wording:

Imagine you've been experiencing headaches. You visit your doctor and talk to him about your symptoms. You also tell the doctor that you've been feeling a lot of stress lately. After doing a complete examination, the doctor decides that the headaches are probably due to stress. The doctor wants to work with you over the next month to reduce your stress.

You want to have an MRI to make sure everything is OK. An MRI is a special and expensive type of x-ray that allows doctors to take detailed pictures of parts of the body such as the heart, spinal cord, or head. Remember that after your complete examination the doctor thinks you don't need the MRI. Then imagine that you have the following conversation with the doctor about the MRI and financial incentives. In this dialogue, the patient speaks first.

VIGNETTE 1 - CODE 1

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it I

DOC: Our physician's group does have financial incentives to keep costs down by avoiding tests when they are not necessary. However, no single decision about an MRI affects my salary. In my opinion an MRI is not needed in your case.

VIGNETTE 2 - CODE 2

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: It used to be that physicians were able to provide tests for patients just to set their minds at rest. Unfortunately, your health plan won't allow me to do it for that reason. Even though I'd like to order it for you, your plan is not going to pay for it.

VIGNETTE 3 - CODE 3

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I can understand that you're worried about whether everything is OK. It also sounds like you're worried that I'm not ordering the test because it's too expensive. These days with Managed Care lots of people share your worries about this. I want to set your mind at rest because I truly do not think that the test is needed at this point.

VIGNETTE 4 - CODE 4

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I understand that you'd like an MRI to make sure that everything is OK. But based on your symptoms, I really don't think you need one. I'd like to treat you for a month or so and then talk again about whether we need an MRI. Would that be acceptable to you?

VIGNETTE 5 - CODE 5

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I've had a lot of experience taking care of patients with problems like yours. The problem you're having is really quite common. You should follow the treatment I've outlined, and then I can reevaluate the situation again in a month.

VIGNETTE 6 - CODE 6

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I usually don't order an MRI under circumstances like yours. There's no outside pressure that has made any difference in how I treat patients with headaches. You may set your mind at rest that I'm doing this because this is how I practice medicine.

863. This section is about physicians telling patients about how health insurance and managed care policies affect health care. First, I will ask you about your health care. Later, you will hear a recorded conversation between a doctor and patient and I'll ask some questions about the conversation.

Do you have a regular doctor or clinic?

REMARKS: Vignette text (See next page):

Next I'm going to describe a youth -- named (John/Mary). After I read a description of (him/her) I'll ask you some questions about how you think and feel about (him/her).

ADHD vignette

INTERVIEWER: READ SELECTED VIGNETTE, THEN GIVE CARD FOR VIGNETTE (CHLDVIG) TO R FOR REFERENCE.

(John/Mary) is a (white/black), (male/female), (child who is 8/youth who is 14) years old. (John/Mary) has always had trouble in school, especially in completing assignments on time, even though (he/she) has average intelligence. (John/Mary)'s teachers note that (John/Mary) is very distractible, and that they often have to remind (John/Mary) to get back to the task at hand. (John/Mary) is often up and down, out of (his/her) seat, looking out the window, or talking to classmates (John/Mary) does similar things at home. (His/Her) parents notice that (he/she) easily forgets what (he/she)'s supposed to be doing, has trouble getting up in the morning and going to bed at night, and loses things like toys and games. (John/Mary) also has difficulty making and keeping friends.

Depression vignette

INTERVIEWER: READ SELECTED VIGNETTE, THEN GIVE CARD FOR VIGNETTE (CHLDVIG) TO R FOR REFERENCE.

(John/Mary) is a (white/black), (male/female) (child who is 8/youth who is 14) years old. In the last few months, (John/Mary) has been increasingly moody, staying in (his/her) room after school, and seems to have lost interest in (his/her) favorite hobbies and in friends. (John/Mary) says that (he/she) always feels very tired even though (he/she) is sleeping more than normal, and doesn't feel like eating. (John/Mary) has been having trouble concentrating on what (he/she) is doing both in school and at home, and has told (his/her) parents that "I wish I hadn't been born." One of (John/Mary)'s friends has also heard (him/her) talk about committing suicide.

Normal vignette

INTERVIEWER: READ SELECTED VIGNETTE, THEN GIVE CARD FOR VIGNETTE (CHLDVIG) TO R FOR REFERENCE.

(John/Mary) is a (white/black), (male/female) (child who is 8/youth who is 14) years old. (John/Mary) has several friends in (his/her) neighborhood that (he/she) gets together with one or two times per week, and is involved in several hobbies, including sports and music. (John/Mary) usually gets along fairly well with other kids, but occasionally has some problems with needing to have (his/her) own way or go first in games. (John/Mary) is of average intelligence and behaves appropriately at school, although (he/she) tends to be somewhat shy about participating in class. (John/Mary)'s parents note that (he/she) is sometimes moody, but this comes and goes.

Asthma vignette

INTERVIEWER: READ SELECTED VIGNETTE, THEN GIVE CARD FOR VIGNETTE (CHLDVIG) TO R FOR REFERENCE.

(John/Mary) is a (white/black), (male/female) (child who is 8/youth who is 14) years old. (John/Mary) has a history of breathing problems. (John/Mary) often has bouts of coughing at night, and doesn't sleep very well. (His/Her) parents and teachers have noticed that these problems seem to be particularly bad during challenging situations, in the spring and fall, and during strenuous sports activities. (John/Mary) used to enjoy playing soccer but recently gave it up because of these problems. (John/Mary) feels badly about (his/her) breathing problems, which seem to be getting worse, and wishes (he/she) could "be just like other kids." (John/Mary) is involved in several hobbies, including sports and music, and shares these activities with several friends.

962. First, I'd like to know what you think may be wrong (if anything) with (John/Mary).

The next question refers to [COUNTRY NAMED IN NATBORN]. In a moment, I will show you a card that has three boxes—A, B, and C. There's something I want to explain before I show you the card. We just want you to choose one box. We do not need to know anything specific about what's inside the boxes.

Box A and Box B show pictures of houses. Box C is for any kind of house not shown in the pictures.

Box A
Farm

Box B
Apartment building
Hut, Shack or other nonstandard dwelling
Single-family house

Box C
Other type of dwelling
(specify)

1001. Thinking back to the time when you were born, tell me which box shows the kind of house your family lived in at that time: A, B, or C?
We just want you to choose one box.

REMARKS: Hand Card C3 contains the following: Box A shows a boat. Box B shows airplane/ truck/ car, truck, or bus. Box C is categories not shown in A or B.

IF RESPONDENT HESITATES OR CALLS OUT AN ITEM IN BOX B, SAY: If you're in Box B, we do not need to know which specific type of transportation applies to you. The reason is that, right now, we're focusing on Box A.

In a moment, I am going to show you another card with three boxes. Again, you answer by just picking a box. The question is about immigration, but it does not “zero in” on anything that people might not want to tell us. Here’s the card— which I need to explain before you answer.

As you can see, Box A at the top shows the immigration card for permanent legal residence in the United States; it is also called a “green card.” It is an official valid card issued to you by the United States government. Box B shows some drawings for U.S. citizen and other immigration categories; I would be happy to explain these if you like. Box C is for categories not listed in A or B.

1003. Thinking of your current immigration status right now, is that in Box A, B, or C? If it’s in Box B, we do not want to know which specific category applies to you, and there will be no more questions about Box B. (IF RESPONDENT ASKS WHY, SAY: Because right now we are focusing on Box A.)

A	B	C
<p>Legal permanent resident With a valid and official green card issued to me by the U.S. government</p>	<p>United States Citizen</p> <p>Student, work, or tourist visa</p> <p>Undocumented I do not have my own valid official green card</p> <p>Refugee or asylee Without a green card</p>	<p>Some other category Not in Box A or Box B</p>

**The 2004 Topical Module: Genes and the Environment
(GENEVIG1-INTRWGHT)**

INSTRUCTIONS FOR QUESTIONS GENEVIG1-GENENVO4:

Character, personality, and many types of behavior are influenced both by the genes people inherit from their parents and by what they learn and experience as they grow up. For each of the following descriptions, we would like you to indicate what percent of the person's behavior you believe is influenced by the genes they inherit, and what percent is influenced by their learning and experience and other aspects of their environment.

The boxes on handcard D1 are arranged so that the first box on the LEFT (which is numbered 1) represents 100% genetic influence (and 0% environment). The next box (numbered 2) represents 95% genes (and 5% environment), and so on. The RIGHTMOST box (numbered 21) represents 100% environmental influence (and no genetic influence). After each description, please type the number of the box that comes closest to your answer.

Please use the numbered scale on handcard D1 to indicate, FOR EACH OF THE BEHAVIORS DESCRIBED, what percent of the person's behavior you think is influenced by the genes they inherit, and what percent is influenced by their learning and experience. After each question, type the number of the box that comes closest to your answer. Remember, the higher the number, the more you think the behavior is influenced by learning and experience; the lower the number, the more you think it is influenced by genes

REMARKS: There are a small number of inconsistent responses to the preceding items on alcohol consumption during the last year (e.g. reporting drinking 1-3 times a year on DRINKYR and drinking 4 or more times on DRINK6UP). These have been retained so researchers can examine these discrepancies. Hand Card F3 contains responses 1-9. This question was asked only to women respondents

1067. Now, please think about this situation. Two scientists want to know if a certain drug is effective against high blood pressure. The first scientist wants to give the drug to one thousand people with high blood pressure and see how many of them experience lower blood pressure levels. The second scientist wants to give the drug to five hundred people with high blood pressure, and not give the drug to another five hundred people with high blood pressure, and see how many in both groups experience lower blood pressure levels. Which is the better way to test this drug?

The next few items concern some public issues.

1080. The first issue is global warming. Global warming means a trend toward warmer temperatures throughout the world, with more extreme weather in many places and changes in food production that could affect our way of life. Some people believe that the burning of gasoline and other fossil fuels causes global warming. Others say that global warming has purely natural causes.

1085. Here is another public issue: research that uses human embryonic stem cells. These are cells from human embryos that can develop into many different types of tissue. Some say that cells taken from human embryos are uniquely valuable in medical research. Others say that the same discoveries can be made without destroying living embryos.

REMARKS: Hand Card B14 contains responses 1-5.

1094. Here is another public issue: genetically modified foods. Genetically modified foods come from plants or animals whose characteristics have been changed by the alteration, addition, or deletion of DNA in their genetic material using advanced laboratory techniques.

Some say that genetically modified foods are unsafe and pose risks for human health. Others say that they are safe and necessary to reduce world hunger. Please look at Card B15. (On a scale of 1 to 5, where 1 means "Very Well" and 5 means "Not at All"), how well do the following groups understand the risks posed by genetically modified foods?

INSTRUCTION: IF ASKED WHAT "ADVANCED LABORATORY TECHNIQUES" MEANS: This typically involves "recombinant DNA" or "gene splicing," in which genetic material from one organism is inserted into the genes of another. Sometimes, the two organisms are members of different species.

1097. Please look at Card B18. When making policy recommendations about genetically modified foods, to what extent do you think the following groups would support what is best for the country as a whole or what serves their own narrow interests?

INSTRUCTION: IF ASKED WHAT NARROW INTEREST MEANS: Well, someone might gain financially if a certain policy were adopted or it might advance his or her career.

REMARKS: Hand Card B22 contains responses 1-4.

1102. 2007-2008 has been designated the International Polar Year. During this year, many scientific and educational organizations will be making efforts to increase public awareness of the Earth's polar regions. These organizations hope that people will learn more about the people and animals that live near the poles, the changes taking place in the environment there, and new scientific discoveries about the Arctic and the Antarctic. Still looking at Card B22, do you think you would be very likely, somewhat likely, somewhat unlikely, or very unlikely to...

1103. The next few questions are about the Arctic and the Antarctic. The Arctic is the region around the North Pole; Antarctic is the region that contains the South Pole. These questions are like ones you might see on a television game show. If you don't know or aren't sure, just tell me so, and we will skip to the next question. Remember true, false, or don't know.

Section F: NEW SCIENCE ITEMS

Now, we are going to do some more detailed questions on science and technology. Scientists and educators are interested in how familiar adults are with the things being taught in today's schools. Many of these questions are likely to concern things that weren't taught or emphasized when you were in school. Some of the questions involve pictures or graphs.

SELF-ADMINISTERED CONDITION ONLY: You may not know the answer to every question. Just hit the [F7] key to move onto the next question. When you are ready, please ask the interviewer for the cards with the pictures.

IF ASKED: A stock option is a right to purchase stock at a set price for several years into the future, typically ten years. For example, one stock option at \$10 means that you can purchase your company stock for \$10 anytime over ten years. A stock option does not include a plan in which there are periodic deductions from payroll to set aside money to purchase shares at the end of an offering period. That is typically called an Employee Stock Purchase Plan.

I'm going to ask you some questions about all the people that you are acquainted with, meaning that you know their name and would stop and talk at least for a moment if you ran into the person on the street or in a shopping mall. Some of these questions may seem unusual but they are an important way to help us understand more about social networks in America. Please answer the questions as best you can.

First, I'm going to describe a person, let's call (him/her) [Tyrone/John/Shontell/Mary]. After I read a description of (him/her) I'll ask you some questions about how you think and feel about (him/her). There are no right-or-wrong answers. I'm only interested in what you think of [Tyrone/John/Shontell/Mary].

M1VIG1

Tyrone is a black man. For the last several weeks **Tyrone** has been feeling really down. He wakes up in the morning with a sad mood and heavy feeling that sticks with him all day long. He isn't enjoying things the way he normally would. In fact nothing seems to give him pleasure. Even when good things happen, they don't seem to make **Tyrone** happy. The smallest tasks are difficult to accomplish. He finds it hard to concentrate on anything. He feels out of energy, out of steam and cannot do things he usually does. And even though **Tyrone** feels tired, when night comes he can't go to sleep. **Tyrone** feels pretty worthless, very discouraged, and guilty. **Tyrone's** family has noticed that he has lost appetite and weight. He has pulled away from them and just doesn't feel like talking.

Now let us talk about trade with other countries.

1299. Suppose two friends of yours are talking about trade with other countries. One friend thinks that increased trade has created a lot of jobs in the United States for people with jobs like yours. The other friend thinks that increased trade has taken away a lot of jobs in the United States for people with jobs like yours. Which view is closer to your own?

1440. We would like to know what you think people in these jobs actually earn. Please write in how much you think they usually earn, each year, before taxes. Many people are not exactly sure about this but your best guess will be close enough. This may be difficult, but it is very important. So please try. Please write in how much they actually earn each year.
